PROFILE SUMMARY

Computer Engineering student with hands-on experience in software development through internships and academic projects. Proficient in Python, JavaScript, React, SQL and REST APIs with a strong understanding of data structures, databases and modern software development practices. Passionate about building scalable, user-focused applications while continuously learning emerging technologies and solving real-world problems.

EDUCATION

Shree L. R. Tiwari College of Engineering, Mumbai University 2023 – 2027
Bachelor of Engineering in Computer Engineering CGPA: 8.13

Thakur College of Science & Commerce, Mumbai 2021 – 2023
HSC (Science)

PROJECTS

Namami Vindhyavasini Website | React, TypeScript, PostgreSQL

- Developed a responsive website featuring dynamic blogs, event management, spiritual content section and an admin dashboard using React, TypeScript and Supabase.
- Deployed the website and optimized Google SEO, performance and responsiveness to improve search visibility, user engagement and overall user experience.

News Review & Publishing Platform | React, Python, REST APIs

- Developed a news publishing platform enabling users to submit, review and manage news articles through an intuitive interface.
- Integrated REST APIs and implemented role-based content management to streamline news publishing and improve user engagement.

INTERNSHIP

Software Development Intern July 2025 – Aug 2025
Compozant · Remote

- Developed and enhanced responsive web application features using React.js and JavaScript in a collaborative development environment.
- Contributed to UI improvements, debugging and feature implementation while following software development practices.

Cloud & DevOps Trainee Dec 2024 – Jan 2025
Compozant · Remote

- Gained hands-on experience with AWS, cloud deployment and DevOps fundamentals through practical training.
- Assisted in cloud resource management while learning infrastructure monitoring and cloud security best practices.

SKILLS

- Languages: Python, Java, JavaScript, SQL
- Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, REST APIs, Tailwind CSS
- Databases: MongoDB, PostgreSQL, Supabase
- Tools & Skills: Git, GitHub, Vercel, Data Analysis, UI Design, Botpress, n8n
