

UJWAL SINGH

SAP Data Analyst | SAP Analytics Cloud (SAC) Certified

+91 7977339435 | ujwalsingh426@gmail.com | linkedin.com/in/ujwalsingh23 | github.com/ujwalx23

PROFILE SUMMARY

Computer Engineering student and SAP Certified – Data Analyst, SAP Analytics Cloud (C_SAC), with a strong foundation in data analysis, database-driven development and enterprise reporting. Hands-on experience building data-driven applications, integrating APIs and delivering measurable outcomes for real clients through internships and client projects. Skilled in SAP Analytics Cloud modelling, story design and planning, combined with proficiency in SQL, Python and dashboard/reporting tools. Strong analytical and problem-solving mindset with a keen interest in data analytics and enterprise reporting.

SKILLS

- SAP Analytics Cloud (SAC): Data Modelling, Story Design & Dashboarding, Data Blending, Planning, Data Actions & Allocations, Smart Predict, Live & Import Connections
- SAP & Data Analytics: SAP S/4HANA, SAP Business Technology Platform (BTP), SAP Business Data Cloud (BDC), SAP Datasphere, Data Analysis, Data Visualization
- Programming: Python, JavaScript, SQL
- Web Development: React.js, TypeScript, HTML5, CSS
- Databases & Tools: PostgreSQL, MongoDB, Supabase, Git, GitHub, Vercel, Botpress

PROJECTS

Namami Vindhyavasini Temple Website - Development | *React, TypeScript, PostgreSQL, Supabase — Client Project*

- Developed and deployed a production-ready website end-to-end for a real-world client using React and TypeScript with Supabase and PostgreSQL.
- Built data-driven features and functional modules from scratch including dynamic blogs, event management, spiritual content sections and an admin dashboard for efficient content management.
- Designed and structured the PostgreSQL database schema and integrated REST APIs to support dynamic content, event data and real-time application workflows.
- Managed the project from initial requirement gathering through final deployment while coordinating directly with the client to deliver functional and user-focused features.

MediSoul - AI Medical Companion | *AIML, TypeScript, AI chatbot, React*

- Developed an AI-powered medical companion providing symptom analysis, personalized health insights and health history tracking through an interactive web application.
- Trained and fine-tuned the client-side AI chatbot using curated health and symptom datasets to improve the accuracy and relevance of AI-driven health analysis.
- Built Quick Appointments and health history features and integrated them with AI health analysis to create a unified and user-friendly healthcare experience.

CERTIFICATIONS

SAP Certified - Data Analyst - SAP Analytics Cloud (C_SAC_2601) — SAP (2026)

- Completed SAP Learning Journey – “*Becoming a Certified Data Analyst in SAP Analytics Cloud*”: Exploring SAP Analytics Cloud, Designing Stories, Data Visualization, Data Modelling, Data Integration, Manual Planning and Advanced Planning features in SAP Analytics Cloud.

INTERNSHIP EXPERIENCE

Software Development Intern | *Compozant · Remote*

Jul 2025 – Aug 2025

- Developed and enhanced responsive web application features using React.js and JavaScript while following modern UI development practices.
- Contributed to UI improvements, debugging and feature implementation while applying SEO-focused practices to improve website structure, accessibility and search engine discoverability.
- Collaborated with senior developers and cross-functional team members to translate requirements into working features while completing tasks within sprint timelines.

EDUCATION

Bachelor of Engineering in Computer Engineering | *Shree L. R. Tiwari College of Engineering, Mumbai University*

2023 – 2027

CGPA: 8.13 / 10
